### United States Patent and Trademark Office (USPTO) Office Action (Official Letter) About Applicant's Trademark Application

U.S. Application Serial No. 97748723

Mark: MONSTER

**Correspondence Address:** 

DEBORAH A. GUBERNICK SNELL & WILMER L.L.P.

600 ANTON BLVD.

**SUITE 1400** 

COSTA MESA CA 92626

**UNITED STATES** 

Applicant: FOKUS BILGISAYAR SANAYI VE TICARET LIMITED SIRKETI

Correspondence Email Address: ipocdocket@swlaw.com

### NONFINAL OFFICE ACTION

**Response deadline.** File a response to this nonfinal Office action within three months of the "Issue date" below to avoid <u>abandonment</u> of the application. Review the Office action and respond using one of the links to the appropriate electronic forms in the "How to respond" section below.

**Request an extension.** For a fee, applicant may <u>request one three-month extension</u> of the response deadline prior to filing a response. The request must be filed within three months of the "Issue date" below. If the extension request is granted, the USPTO must receive applicant's response to this letter within six months of the "Issue date" to avoid abandonment of the application.

**Issue date:** October 13, 2023

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue(s) below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

### **SUMMARY OF ISSUES:**

- Prior-Filed Trademark Applications
- Section 2(d) Refusal Likelihood of Confusion

### PRIOR-FILED TRADEMARK APPLICATIONS

The effective filing dates of pending U.S. Application Serial Nos. 97424465, 90894759, 90893972, and 90853690 precede applicant's filing date. See attached referenced applications. If one or more of the marks in the referenced applications register, applicant's mark may be refused registration under Trademark Act Section 2(d) because of a likelihood of confusion with the registered mark(s). *See* 15 U.S.C. §1052(d); 37 C.F.R. §2.83; TMEP §\$1208 *et seq.* Therefore, upon receipt of applicant's response to this Office action, action on this application may be suspended pending final disposition of the earlier-filed referenced applications.

In response to this Office action, applicant may present arguments in support of registration by addressing the issue of the potential conflict between applicant's mark and the marks in the referenced applications. Applicant's election not to submit arguments at this time in no way limits applicant's right to address this issue later if a refusal under Section 2(d) issues.

### SECTION 2(d) REFUSAL - LIKELIHOOD OF CONFUSION

Registration of the applied-for mark is refused because of a likelihood of confusion with the marks in U.S. Registration Nos. 2184002, 2575745, 2724015, 2774858, 3671565, and 6531222. Trademark Act

Section 2(d), 15 U.S.C. §1052(d); see TMEP §§1207.01 et seq. See the attached registrations.

Trademark Act Section 2(d) bars registration of an applied-for mark that is so similar to a registered mark that it is likely consumers would be confused, mistaken, or deceived as to the commercial source of the goods and/or services of the parties. See 15 U.S.C. §1052(d). Likelihood of confusion is determined on a case-by-case basis by applying the factors set forth in *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973) (called the "du Pont factors"). *In re i.am.symbolic, llc*, 866 F.3d 1315, 1322, 123 USPQ2d 1744, 1747 (Fed. Cir. 2017). Any evidence of record related to those factors need be considered; however, "not all of the *DuPont* factors are relevant or of similar weight in every case." *In re Guild Mortg. Co.*, 912 F.3d 1376, 1379, 129 USPQ2d 1160, 1162 (Fed. Cir. 2019) (quoting *In re Dixie Rests., Inc.*, 105 F.3d 1405, 1406, 41 USPQ2d 1531, 1533 (Fed. Cir. 1997)).

Although not all *du Pont* factors may be relevant, there are generally two key considerations in any likelihood of confusion analysis: (1) the similarities between the compared marks and (2) the relatedness of the compared goods and/or services. *See In re i.am.symbolic, llc*, 866 F.3d at 1322, 123 USPQ2d at 1747 (quoting *Herbko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1164-65, 64 USPQ2d 1375, 1380 (Fed. Cir. 2002)); *Federated Foods, Inc. v. Fort Howard Paper Co.*, 544 F.2d 1098, 1103, 192 USPQ 24, 29 (C.C.P.A. 1976) ("The fundamental inquiry mandated by [Section] 2(d) goes to the cumulative effect of differences in the essential characteristics of the goods [or services] and differences in the marks."); TMEP §1207.01.

In this case, the following factors are the most relevant: similarity of the marks, similarity and nature of the goods, and similarity of the trade channels of the goods. *See In re Viterra Inc.*, 671 F.3d 1358, 1361-62, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012); *In re Dakin's Miniatures Inc.*, 59 USPQ2d 1593, 1595-96 (TTAB 1999); TMEP §§1207.01 *et seq.* 

The applicant's mark is "MONSTER" in stylized form for "Notebook computers; laptop computers; tablet computers; desktop computers; computer mouses; mouse pads; cases adapted for notebook computers".

### The registrants' marks are:

- "MONSTER" in standard characters for "electrical and musical signal transmitting cable and connectors". (United States Registration No. 2184002)
- "MONSTER" in standard characters for "Electronic game accessories, namely, electrical cables, electrical connectors". (United States Registration No. 2575745)
- "MONSTER" and design for "Electrical cables, connectors and control devices for use with audio and video components". (United States Registration No. 2724015)
- "MONSTER" in stylized form for "electrical and optical cables, wires and connectors for use with audio and video components". (United States Registration No. 2774858)
- "MONSTER" and design for "Electrical and electromagnetic signal transmitting, amplifying, receiving and converting devices, namely, cables, wires, connectors, and control devices for use with electrical, electronic, and computer devices; loudspeakers; telephone accessories, namely, telephone cables and connectors, telephone headsets, cases for telephones, telephone chargers and voltage surge protectors; mobile phone equipment and accessories, namely, mobile telephone cables, electrical power connectors, mobile telephone chargers, mobile telephone headsets; computer components and accessories, namely, computer component cables and connectors; audio equipment and accessories, namely, audio cables and connectors, signal splitters for

electrical audio apparatus, speakers, battery chargers, FM radio transmitters, and remote controls for use with audio and video devices and for use with wireless lighting controllers; video equipment and accessories, namely, video cables and connectors, and voltage surge protectors; electronic game equipment and accessories, namely, electronic game cables and connectors; electrical power control components and accessories, namely, power cables, power switches, electrical connectors, electric power strips, voltage surge protectors, circuit chargers, circuit breakers, and electric control devices for energy management; energy conditioning devices, namely, power line conditioners, voltage conditioners, voltage stabilizers, current stabilizers, and power noise reduction devices; power cell rechargers; control protocol software featuring interoperability standards, and computer hardware and electrical controllers, for centralized home control, namely, for controlling residential lighting, audio devices and video devices." (United States Registration No. 3671565)

"MONSTER" in standard characters for "Electrical and electromagnetic signal transmitting, amplifying, receiving, and converting devices, namely, cables, wires, connectors, and control devices for use with electrical, electronic, and computer devices in the nature of smart phones, laptops, and tablet computers; electrical and electronic signal wireless remote controllers and signal processors, senders, and receivers for sending receiving, and controlling audio, video, computer, appliances, computers, heating and air, and security systems; computer components and accessories, namely, computer peripherals, computer cables, and computer power and electric connectors; audio equipment and accessories, namely, speakers, subwoofers, power amplifiers, audio signal equalizers; video equipment and accessories, namely, digital media recorders and digital media players; audio speakers; speaker docks, namely, electronic docking stations featuring speakers; protective laptop cases; cell phone cases and accessories, namely, cell phone cases, battery chargers, and connecting cables; mounting devices for flat screen video displays and speakers, namely, mounts and mounting brackets adapted for flat screen video displays and speakers; digital audio players; media players; electrical power control components and accessories, namely, power conditioners, power cell re-chargers, power amplifiers, voltage stabilizers, current stabilizers, electrical surge protectors, circuit chargers and circuit breakers; power line communication equipment, namely, signal processors, senders, and receivers for transmitting and receiving audio, video, and data over power lines; eyewear; headphones; electronic docking stations; computer memories; blank USB flash drives; solid state drives; dynamic random access memories; flash memory cards, namely, blank flash memory cards; computer disk drives; blank SD cards; compact flash memories, namely, blank compact flash memory cards; cameras and camera accessories, namely, bags for cameras and photographic equipment, camera tripods, lens hoods, lens filters, lenses for cameras; and virtual reality 3D consumer electronics, namely, virtual reality glasses, headsets for virtual reality games; recorded software for controlling audio and video signals, streaming, broadcasting, transmitting and reproducing music; Downloadable computer software for controlling audio and video signals, streaming, broadcasting, transmitting and reproducing music; Stand-alone voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; stand-alone voice controlled personal assistant device consisting of cloud-connected and voice-controlled smart audio speakers for integrating services provided via apps; voice controlled audio speakers; home automation control devices comprising computer hardware and wireless controllers for use in controlling networked devices in the Internet of Things (IoT); wireless communication devices for voice, data, or image transmission; downloadable computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; downloadable computer software used for controlling stand-alone voice controlled information and personal assistant devices; downloadable computer software for use in connection with digital content subscription service and for providing search platforms to allow users to request and receive digital media content; downloadable computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing audio and multimedia content; downloadable voice command and recognition software, downloadable speech to text conversion software, and downloadable voice-enabled software applications for controlling smart phones, smart appliances, smart TVs, tablet computers, and laptop computers; downloadable computer software for personal information management, and for accessing, browsing, and searching online databases, audio and multimedia content, games, and software applications". (United States Registration No. 6531222)

### Comparison of the Marks

Marks are compared in their entireties for similarities in appearance, sound, connotation, and commercial impression. *Stone Lion Capital Partners, LP v. Lion Capital LLP*, 746 F.3d 1317, 1321, 110 USPQ2d 1157, 1160 (Fed. Cir. 2014) (quoting *Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondee En 1772*, 396 F.3d 1369, 1371, 73 USPQ2d 1689, 1691 (Fed. Cir. 2005)); TMEP §1207.01(b)-(b)(v). "Similarity in any one of these elements may be sufficient to find the marks confusingly similar." *In re Inn at St. John's, LLC*, 126 USPQ2d 1742, 1746 (TTAB 2018) (citing *In re Davia*, 110 USPQ2d 1810, 1812 (TTAB 2014)), *aff'd per curiam*, 777 F. App'x 516, 2019 BL 343921 (Fed. Cir. 2019); TMEP §1207.01(b).

Here, applicant's mark is "MONSTER" in stylized form and registrants' marks are "MONSTER" in standard character, in stylized form, and with a design element.

In a likelihood of confusion determination, the marks in their entireties are compared for similarities in appearance, sound, connotation, and commercial impression. *In re i.am.symbolic, llc*, 866 F.3d 1315, 1323, 123 USPQ2d 1744, 1748 (Fed. Cir. 2017); *Stone Lion Capital Partners, LP v. Lion Capital LLP*, 746 F.3d 1317, 1321, 110 USPQ2d 1157, 1160 (Fed. Cir. 2014) (quoting *Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondee En 1772*, 396 F.3d 1369, 1371, 73 USPQ2d 1689, 1691 (Fed. Cir. 2005)); *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973); TMEP §1207.01(b)-(b)(v).

In the present case, the word portion in the applicant's mark is "MONSTER" and the word portions in the registrant's mark are "MONSTER". Thus, the word portion of the marks are identical in terms of in appearance, sound, and meaning, "and have the potential to be used . . . in exactly the same manner." *In re i.am.symbolic, llc*, 116 USPQ2d 1406, 1411 (TTAB 2015), *aff'd*, 866 F.3d 1315, 123 USPQ2d 1744 (Fed. Cir. 2017). Additionally, because they are identical, these marks are likely to engender the same connotation and overall commercial impression when considered in connection with applicant's and registrant's respective goods and/or services. *Id*.

Further, when evaluating a composite mark consisting of words and a design, the word portion is normally accorded greater weight because it is likely to make a greater impression upon purchasers, be remembered by them, and be used by them to refer to or request the goods and/or services. *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012) (quoting *CBS Inc. v. Morrow*, 708 F.2d 1579, 1581-82, 218 USPQ 198, 200 (Fed. Cir. 1983)); *Made in Nature, LLC v. Pharmavite LLC*, 2022 USPQ2d 557, at \*41 (TTAB 2022) (quoting *Sabhnani v. Mirage Brands, LLC*, 2021 USPQ2d 1241, at \*31 (TTAB 2021)); TMEP §1207.01(c)(ii). Thus, although marks must be compared in their entireties, the word portion is often considered the dominant feature and is accorded greater weight in determining whether marks are confusingly similar, even where the word portion has

been disclaimed. *In re Viterra Inc.*, 671 F.3d at 1366-67, 101 USPQ2d at 1911 (citing *Giant Food, Inc. v. Nation's Foodservice, Inc.*, 710 F.2d 1565, 1570-71, 218 USPQ2d 390, 395 (Fed. Cir. 1983)). Here, the word portions of the applicant's and registrant's marks are identical.

As such, applicant's mark is confusingly similar to the cited registrations.

### Relatedness of the Goods

The goods and/or services are compared to determine whether they are similar, commercially related, or travel in the same trade channels. *See Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369-71, 101 USPQ2d 1713, 1722-23 (Fed. Cir. 2012); *Herbko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1165, 64 USPQ2d 1375, 1381 (Fed. Cir. 2002); TMEP §§1207.01, 1207.01(a)(vi).

The compared goods and/or services need not be identical or even competitive to find a likelihood of confusion. *See On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000); TMEP §1207.01(a)(i). They need only be "related in some manner and/or if the circumstances surrounding their marketing are such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source." *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (quoting *7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); TMEP §1207.01(a)(i); *see Made in Nature, LLC v. Pharmavite LLC*, 2022 USPQ2d 557, at \*44 (TTAB 2022) (quoting *In re Jump Designs LLC*, 80 USPQ2d 1370, 1374 (TTAB 2006)).

In the present case, the applicant's goods are "Notebook computers; laptop computers; tablet computers; desktop computers; computer mouses; mouse pads; cases adapted for notebook computers" and the registrant's goods are broadly identified as "signal transmitting cable and connectors", "electrical cables, electrical connectors", and "cables, wires, connectors, and control devices for use with electrical, electronic, and computer devices in the nature of smart phones, laptops, and tablet computers" among other electronic goods.

The attached evidence from anker.com, belkin.com, dell.com, and asus.com establishes that the same entity commonly manufactures, produces, or provides the relevant goods and markets these goods under the same mark. The attached evidence also demonstrates that the relevant goods and/or services are sold or provided through the same trade channels and used by the same classes of consumers in the same fields of use. Thus, applicant's and registrant's goods and/or services are considered related for likelihood of confusion purposes. *See, e.g., In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

Finally, the Trademark Trial and Appeal Board has held that computer hardware products are related to computer software products, such that their marketing under the same or similar marks may be likely to cause source confusion. See In re TIE/Commc'ns, Inc., 5 USPQ2d 1457, 1458 (TTAB 1987) (holding DATA STAR likely to cause confusion when used in connection with both registrant's "computer programs recorded on magnetic media" and applicant's "voice/data communications terminals and parts thereof"); In re Epic Sys. Corp., 228 USPQ 213, 214-15 (TTAB 1985) (holding EPIC for computer software for use in health care facilities likely to be confused with EPIC DATA for "electronic data collection terminals and electronic data collection units"); In re Teradata Corp., 223 USPQ 361, 362 (TTAB 1984) (holding Y NET for computer hardware likely to be confused with XYNET for computer software); Alpha Indus., Inc. v. Alpha Microsystems, 220 USPQ 67, 69, 71-72

(TTAB 1983) (holding ALPHA MICRO for digital computer equipment and programs likely to be confused with ALPHA MICROWAVE for microwave components and subassemblies).

Accordingly, the goodsof applicant and the registrant are considered related for purposes of the likelihood of confusion analysis.

### Conclusion

Thus, based on the foregoing, registration of the applied-for mark is refused registration under Trademark Act Section 2(d) as being likely to cause confusion with the registrant's mark.

Although applicant's mark has been refused registration, applicant may respond to the refusal(s) by submitting evidence and arguments in support of registration.

**How to respond.** File a <u>response form to this nonfinal Office action</u> or file a <u>request form for an</u> extension of time to file a response.

/Seth Chadab/ Seth Chadab Trademark Examining Attorney Law Office 104 (571) 270-1875 Seth.Chadab@USPTO.GOV

### RESPONSE GUIDANCE

- Missing the deadline for responding to this letter will cause the application to <u>abandon</u>. A response or extension request must be received by the USPTO before 11:59 p.m. Eastern Time of the last day of the response deadline. Trademark Electronic Application System (TEAS) <u>system availability</u> could affect an applicant's ability to timely respond. For help resolving technical issues with TEAS, email <u>TEAS@uspto.gov</u>.
- Responses signed by an unauthorized party are not accepted and can cause the application to abandon. If applicant does not have an attorney, the response must be signed by the individual applicant, all joint applicants, or someone with legal authority to bind a juristic applicant. If applicant has an attorney, the response must be signed by the attorney.
- If needed, **find contact information for the supervisor** of the office or unit listed in the signature block.

SheerForce Magnetic Protective iPhone Case for iPhone 14 Pro Max

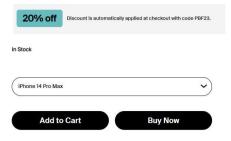

**★★★★** 4.7 (145)

Protect your iPhone with a MagSafe-compatible treated magnetic phone case. The clear, UV light-resistant material prevents discoloration, and the raised-edge design offers superior scratch protection for your screen and camera.

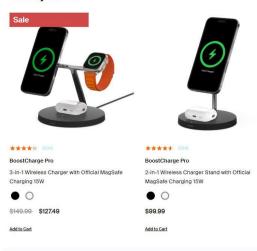

# \$39.99

Klarna. 4 interest-free payments of \$9.99. <u>Learn More</u>

# You may also like

**Compatibility** Support

# Superior protection plus MagSafe compatibility.

Attach your iPhone securely with easy, one-handed placement thanks to MagSafe compatibility and enjoy better viewing in any environment. Clear, UV light-resistant materials prevent discoloration and degradation. Slightly raised edges keep your camera and screen safe from scratches when it's placed face down, and a thin, lightweight design won't interfere with the function or tactile response of your iPhone.

# Secure and Simple Magnetic Attachment

Securely attach your iPhone with this case to any magnetic accessory with easy, one-handed placement.

# Protection from UV light and screen-down placement.

The case's clear materials are UV-light resistant to reduce yellowing and discoloration over time. Slightly raised edges around the screen provide better protection from scratching while iPhone

# Feels and reacts like iPhone 14.

The case doesn't block ports and speakers, allowing for convenient access and wireless charging compatibility. Volume and power buttons maintain the same feel and sound, and at just 1.98mm thickness, the case preserves the original look and feel of your iPhone.

# At a Glance:

- Convenient, one-handed placement
   Clear, UV light-resistant materials
   Thin, lightweight design
   Exposed ports don't interfere with speakers or mic

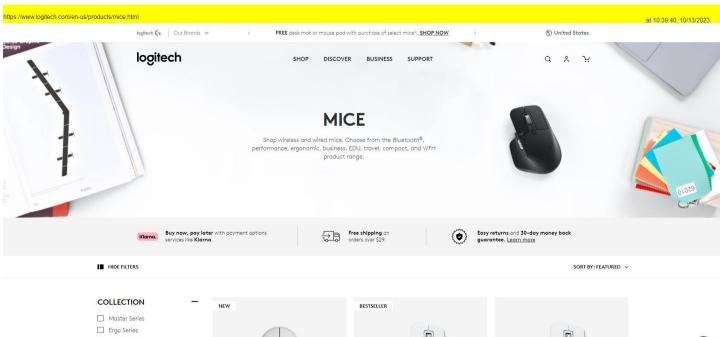

# Package Includes:

SheerForce Magnetic Protective iPhone Case

# LOGITECH STRONG USB CABLE

Extended-length SuperSpeed USB 10 Gbps cables

As low as \$249.99

BUY NOW

SPECIFICATIONS  $\checkmark$  DATA SHEET  $\underline{\psi}$ 

# LOGITECH STRONG USB CABLE

With up to 15x the reach of ordinary USB 3.x cables, Logitech Strong USB lets you separate USB peripherals and a host PC by up to 45 meters (147.6 ft). These active optical cables are plenum-rated and Eca certified for commercial installation in walls, above ceilings, through raceways, and within standard ½" conduit.

KEY FEATURES

# **EXTENDED REACH**

Available in 10, 25, and 45 meter lengths, Logitech Strong USB lets you deploy a self-powered USB device or hub at a significant distance from its host PC. Locate devices like the Logitech Iap touch controller for easy access, but hide the host PC in a cabinet, closet, or behind a display.

# RELIABLE STRENGTH

Unlike ordinary USB cables that can break when subject to pulling and crushing forces, Logitech Strong USB is built to last. With 200 newtons of tensile strength and a 1000 kg crush load, Logitech Strong USB stands up to commercial deployments in walls, above ceilings, and through conduit.

# FAST AND COMPATIBLE

As an active optical cable, Logitech Strong USB delivers up to 10 Gbps for devices with their own power supplies, including **Logitech Tap, Rally Camera.** and **Meetup.** Compliance with the USB 3.2 Gen 2 specification assures backward compatibility with USB 2.0, 3.0, 3.1, and 3.2 devices and computers.

\*Rewards 3% excludes taxes and shipping. Rewards expire on the 15th day of the fourth month following the month in which they were earned. The total amount of Rewards Points that can be earned each Dell fiscal quarter shall not exceed 200,000. (The Dell fiscal calendar begins in February.)
Outlet purchases do not qualify for rewards. Expedited Delivery not available on certain monitors, batteries and adapters and is available in Continental (except Alaska) U.S. only. Other exceptions and restrictions apply. Not valid for resellers and/or online auctions. Offers and rewards subject to change without notice, not combinable with all other offers. See full program terms at <a href="https://www.Dell.com/rewards">www.Dell.com/rewards</a>.

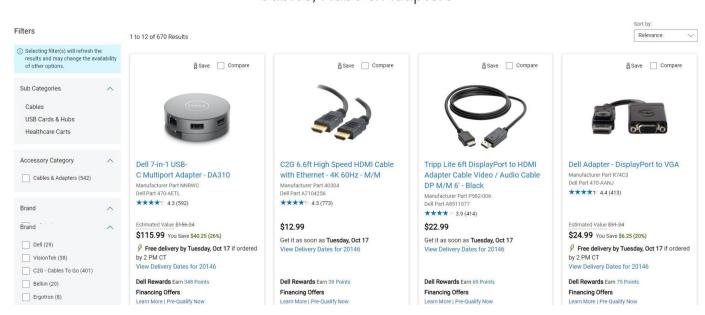

\*Dell Business Credit (DBC): Offered to business customers by WebBank, who determines qualifications for and terms of credit. Taxes, shipping and other charges are extra and vary. The Total Minimum Payment Due is the greater of either \$20 or 3% of the New Balance shown on the statement rounded up to the next dollar, plus all past due amounts. Dell and the Dell logo are trademarks of Dell Inc. In addition, Dell Rewards Members who open a new Dell Business Credit (DBC) account on or after 7/28/2023 receive \$,000 Dell Rewards Points as a bonus. These \$,000 Donus rewards points are typically issued within 30 business days of the DBC open date.

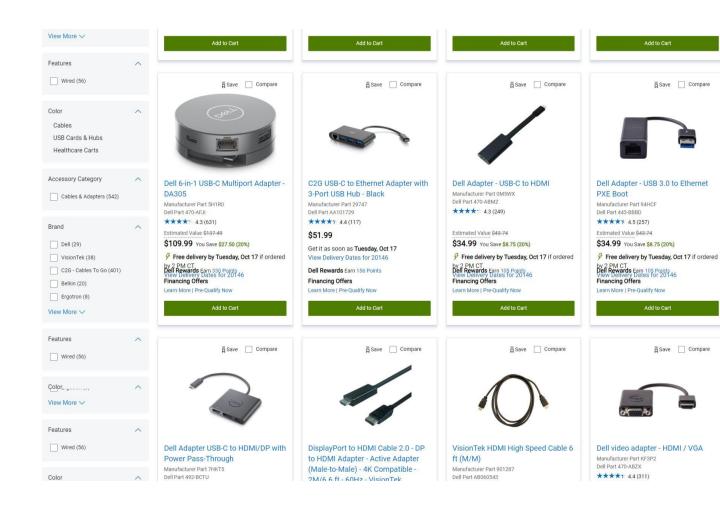

- 1. Returns The 30-day return period is calculated from invoice date. Exceptions to Dell's standard return policy still apply, and certain products are not eligible for return at any time. See dell.com/returnpolicy.
- 2. Expedited Delivery: Expedited Delivery not available on certain TVs, monitors, batteries and adapters, and is available in Continental (except Alaska) U.S. only. Other exceptions apply, Not valid for resellers and/or online auctions. Offers subject to change, not combinable with all other offers. See
- 3. Onsite Service After Remote Diagnosis and Other Important Information: \*On-site Service or Advanced Exchange Service after remote diagnosis: (a) On-site Service after remote diagnosis is determined by the online or phone technician, and may involve customer access to the inside of the system and multiple extended sessions. If the issue is covered by the Limited Hardware Warranty and cannot be resolved remotely, the technician and/or replacement part will be dispatched, usually in 1 or 2 business days, following the completion of the remote diagnosis. The customer must return the original hardware to Dell according to the rules specified. On-site service is provided by Dell Marketing L.P. Availability varies. Other conditions apply, (b) Advanced Exchange Service replaces hardware after remote diagnosis. The customer must return the original hardware to Dell according to the rules specified. Advanced Exchange Service is subject to country availability, (c) For complete details about On-site Service or Advanced Exchange Service, see <u>dell.com/service.confraced</u>.
- 4. Accidental Damage-Additional Information: Accidental Damage Service excludes theft, loss, and damage due to fire, flood or other acts of nature, or intentional damage. Customer may be required to return damaged unit to Dell. Limit of 1 qualified incident per contract year. For more information, consumers visit Accidental Damage Service Contract (Consumer) or commercial customers visit Accidental Damage Service Contract (Consumer) or commercial.
- 5. PowerScale optimizes your workloads with up to 186PB per cluster. <sup>5</sup>
  Feel the flexibility of PowerScale. 9,5x more PB per cluster than Pure FlashBlade//S. <sup>5</sup>
  Based on Dell analysis, July 2023.

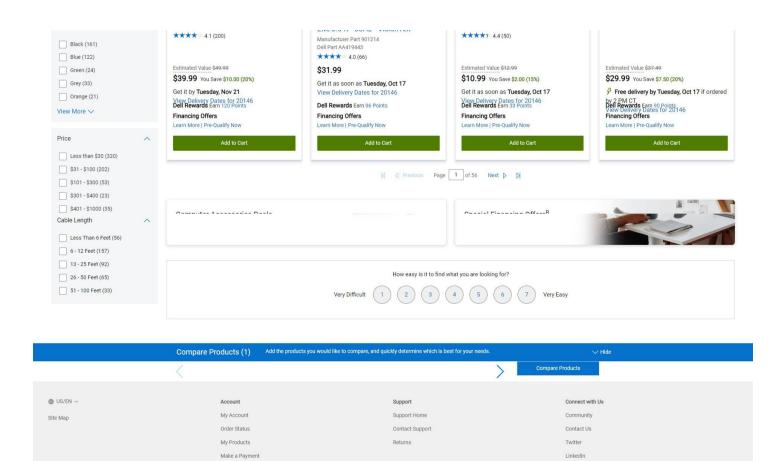

- 6. PowerStore intelligently automates with 5x better data density.<sup>6</sup>
  PowerStore delivers 5x better data density than Pure FlashArray//X20.<sup>6</sup>
  Fased on Dell internal analysis using publicly available specs in August 2023 comparing maximum effective capacity for PowerStore 1200 and FlashArray //X20. Assumes average 4:1 data reduction for PowerStore, 5:1 for Pure Storage. Actual results vary.
- 8. "Lowest price of the year" refers to prices practiced between January 1st, 2023 to date.

## **United States Patent and Trademark Office (USPTO)**

## **USPTO OFFICIAL NOTICE**

Office Action (Official Letter) has issued on October 13, 2023 for U.S. Trademark Application Serial No. 97748723

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action to avoid your application abandoning. Follow the steps below.

- (1) **Read the Office action**. This email is NOT the Office action.
- (2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS). Your response, or extension request, must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response deadline. Otherwise, your application will be <u>abandoned</u>. See the Office action itself regarding how to respond.
- (3) **Direct general questions** about using USPTO electronic forms, the USPTO <u>website</u>, the application process, the status of your application, and whether there are outstanding deadlines to the <u>Trademark Assistance Center (TAC)</u>.

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

### GENERAL GUIDANCE

- <u>Check the status</u> of your application periodically in the <u>Trademark Status & Document Retrieval (TSDR)</u> database to avoid missing critical deadlines.
- <u>Update your correspondence email address</u> to ensure you receive important USPTO notices about your application.
- Beware of trademark-related scams. Protect yourself from people and companies that
  may try to take financial advantage of you. Private companies may call you and pretend
  to be the USPTO or may send you communications that resemble official USPTO
  documents to trick you. We will never request your credit card number or social security
  number over the phone. Verify the correspondence originated from us by using your
  serial number in our database, TSDR, to confirm that it appears under the "Documents"
  tab, or contact the Trademark Assistance Center.
- Hiring a U.S.-licensed attorney. If you do not have an attorney and are not required to

have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
